Thirty CU Staffers Earn Academic Degrees

A breakfast, Employee Assembly meeting, Town Hall meetings, student aid boards, housing boards, staff graduates and their guests gathered in the A.D. White House on May 16 to recognize the accomplishments of the 30 Cornell staff members who earned academic degrees this past year.

Staff members of Cornell and seven other area colleges and universities through the Employee Degree Program and Tuition Aid Program.

Most this year's staff graduates and their guests at the Town Hall meetings are opportunities to help keep students informed of changes taking place in the university, which has a broad effect.

Thirty CU Staffers Earn Academic Degrees

Town Meeting on Workforce Planning Set for May 30

The Employee Assembly will host a Town Meeting for staff on Friday, May 30, from 10:00 a.m. to 12:00 p.m. in Goldwin Smith Hall. All staff members are encouraged to attend.

The meeting is being held to discuss the workforce planning process. A representative of the Workforce Planning Team will facilitate the meeting and answer questions about the workforce planning process. The meeting will be followed by a luncheon hosted by the Employee Assembly.

40,000 Smiles—and No Rain!

A special note to those who work in rainy weather: The Employee Assembly welcomes you to the 2003 Staff Open House—8 to 11 a.m. in Goldwin Smith Hall. Light refreshments will be served, and the Autumn O's will be on hand to answer questions.

College of Human Ecology Holds 2003 Service & Staff Award Ceremony

Thirty CU Staffers Earn Academic Degrees

To celebrate staff excellence and recognize years of service, approximately 50 staff members in the College of Human Ecology (CHE) gathered in Martin Yan Rosenberg Hall for the annual CHE award ceremony May 8.

In her remarks to the audience Dean Marty Yan Rosenberg, explained, "It was an extremely difficult charge for the committee to choose only two recipients for the Exemplary Staff Award. All of the employees nominated for this award are an irreplaceable part of our team."

With a list of the current Exemplary Staff Award winners from then announced, Peter Farley, administrative assistant in Human Development, and Patricia Lauper, an administrative assistant in Policy Analysis and Management (PAM), were selected as the 2003 honorees.

The nominees were selected by a committee composed of two of the exemplary staff award winners from last year, a member each from the faculty and the Staff Advisory Council along with the Chief Business Officer. This year.

George Peter serving on its Board of Trustees. Mike Esposito presently fills those shoes.

You’ve probably heard that Cornell Information Technologies is upgrading the e-mail system this summer. And maybe you’ve seen references to “IMAP,” new mail management tools you can use.

But if you travel or work away from home, or if you’re in a meeting and have the best work-at-a-radio step from your PC, you can count on such applications.

With IMAP you can work with your mail on one computer, even switch to another computer while doing your daily work. It’s like you’re still connected to your computer when you’re 10,000 miles away. The added advantage of using IMAP is that you can access your e-mail from anywhere in the world. You can read your mail on the Web, or when you’re on someone else’s computer or cell phone.

Getting Started...
The step-by-step guide to reaching WebMail.

To get started with WebMail, see www.cit.cornell.edu/computer/email/webmail/.

The user can read their mail on the server and then download it to their computer for offline reads.

A variety of mail clients are available including pop3, imap, and mapi.

For those mail clients that support IMAP, mail is downloaded to the user’s computer for offline reads and updates.

There are a variety of mail clients available including pop3, imap, and mapi.

Intrigued by IMAP?
Bettie Gloszer Lyons

You might wonder why you need IMAP when you already have your own email online. Why not just read your mail on the Web, or when you’re on someone else’s computer or cell phone?

Congratulations, CU Staff Graduates of 2003!

Monica Londoñopetroleum, Environmental Science Program. She holds an undergraduate degree in Agricultural Education from Cornell, and is proud to be adding a graduate degree in Education.

Monica Londoñot eaching her story. "No one can prepare you for how much your personal life will change and it’s unexpected. Be open-minded about your goals and work hard. This is my own story, but I encourage others to listen to opportunities." Monica Londoño, 2003 Graduate in Education, describes the challenges and support she received during her graduate studies. Monica Londoño, who graduated from the College of Agriculture and Life Sciences, credits the tremendous support of her community and family for her successful completion of her degree.

Mona Youssef
Education Administrator

Mona Youssef has been working in the field of education for more than 10 years. She received her undergraduate degree in Educational Studies and her Master’s in Education Administration from the University of Pennsylvania. She has held various positions in educational administration, including Director of Curriculum and Instruction, and Principal at several schools. She is currently the Director of Curriculum and Instruction at the School District of Philadelphia. Mona Youssef is passionate about ensuring that all students have access to high-quality education and is dedicated to creating inclusive and equitable learning environments for all students.

Mona Youssef's quote: "I believe that education is the key to unlocking the potential of each individual. Through education, we can empower students to become leaders in their communities and make a positive impact on the world. As an education administrator, I am committed to creating opportunities for all students to succeed and reach their full potential. It is an honor to be a part of this incredible community of educators who are dedicated to making a difference in the lives of our students."
