United Way campaign launches with Day of Caring Sept. 16
Stuff the Bus starts Sept. 15

BY NANCY Doolittle

This year’s United Way campaign kicks off with the Stephen E. Carter Day of Caring, Sept. 16, from 8 a.m. to 4 p.m. at the Marcy Hall and Stewart Park’s large pavilion, with the official program at noon. This year’s county campaign theme is “Live United” — a call for members of the local community to come together for each other’s well-being.

Day of Caring will cap a countywide drive to collect non-perishable food, school supplies, and household and personal care items to be distributed to local food pantries and community organizations throughout Tompkins County. Cornell donation boxes will be placed in buildings across campus next week, to be picked up Sept. 15-16.

The Tompkins County United Way campaign depends on the continuing success of the Cornell United Way campaign, which provides almost 40 percent of the county’s United Way funding. Because all of the administrative and operating costs of the Tompkins County United Way are funded through corporate donations, including support from Cornell, 100 percent of donors’ gifts go directly to support the 43 United Way-supported community programs and service organizations.

These programs and organizations provide employment for the disabled, transportation for the elderly, programs for troubled teenagers, substance abuse counseling, day care referrals, legal services, dispute resolution and mental health advocacy.

Contributors can designate that their donations support particular organizations or agencies or to another county’s United Way when they pledge their campaign gift. They can also direct their gifts to United Way’s targeted impact areas: Hunger and Food Security, the Urgent Rx Prescription Program, the Basic Needs Fund or student engagement efforts.

The Cornell campaign goal for this year is $790,000, up from $725,000 last year. Recognizing the need generated by the economic situation and responding in “caring community” fashion, members of the Cornell community gave more than $600,000 last year.

With state budgetary cutbacks and a stalling economic recovery, the community needs are significant and support from United Way is critical,” said Paul Streeter, assistant dean for finance and administration at the College of Veterinary Medicine and 2010-11 chair for the Cornell United Way campaign. “But the Cornell community has a great tradition of service, community outreach and giving, and I am confident we can respond to this need,” he said.

University begins second phase of budget redesign

BY SUSAN KELLEY

The university’s budget model continues to dominate the thoughts of many across campus, including Provost Kent Fuchs, who stated, “This may be the most significant thing I’m involved in during my term as provost. Whatever good we create out of this process will have a long, enduring effect.”

The Budget Redesign Steering Committee’s goal is to formulate the first set of redesign changes in time for fiscal year 2012 planning, and to implement subsequent changes over time in conjunction with other administrative initiatives.

“Creating one model that is simpler, more transparent and more informed by data than the several unwieldy models the university currently uses will be a significant undertaking,” said Vice President for Planning and Budget Elmira Mangum, who chairs the committee.

“We want to manage the cost pressures of the current environment and at the same time improve administrative service and quality and academic excellence.”

To do that, the committee will tackle some of the campus’s toughest fiscal issues. How should tuition dollars be distributed among colleges when a student takes a class outside their major? Who owns the different buildings and spaces on campus? Who should pay for their use and upkeep? The community will also suggest changes in how units such as facilities, information technology and communications charge other units for their services. And it will address how the administration can best recover institutional overheads and create a university support fund with which the provost can pay for university-wide priorities.

President David Skorton, Fuchs and Mangum will lead the budget redesign by setting the direction, providing guidance and making final decisions.

The steering committee is made up of four deans, four vice presidents, four college officials, Senior Vice Provost Ron Seiber, the budget director and the university auditor; Vice President for Student and Academic Services Susan Murphy is vice chair. Four subcommittees, with wide representation from across campus, will make recommendations on key issues.

Calling all shutterbugs

Pawprint announces its annual photo contest

Pawprint invites you to share your photo finesse in a competition of fun and spirit. At least ten prizes will be awarded, including Best of Show. Winning entries will be featured in an October edition of Pawprint. One of the top prizes this year is a trip on the Campus to Campus bus!

Guidelines

Submit only one picture per category. Categories are: Adults, Animals, Children, Cornell (any location), Humorous, Landscape/Nature, Special Effects (digital enhancement), Structures/Buildings, and Unspecified. Please add a title to each entry.

Eligibility

Cornell staff, faculty, students, alumni, and retirees are eligible. Family members of Cornellians, Cornell’s professional photographers, their support staff, student photography majors, contest judges, and the Pawprint Editorial Board are asked not to participate. Winning photos from previous year’s contests are ineligible.

J udging

This is a contest for fun. Judges, chosen from Cornell’s photography and graphic design professionals, will look for composition, creativity, and uniqueness, the capture of a mood or special moment. There won’t be a narrow focus on technical detail. The judging will be blind—that is, done anonymously without an indication of the name of the photographer.

How to Enter

Tape the handy label below to your 8 x 10 or smaller photos without frames. Then send to Valerie McMillen, photo contest coordinator, 353 Pine Tree Rd. (this is a campus mail address) Use cardboard to prevent damage to your photo. Entries will be accepted through Sept. 17, and returned after winners are announced in October. Good luck!

Deadline Sept. 17!
Tech Talk
Shaley DeGiorgio

Update RedRover-Secure Now to Continue Protecting Your Privacy

When you use RedRover-Secure, Cornell’s secure Wi-Fi service, “the information transmitted over our wireless networks remains secure, making it very difficult for anyone to access and translate. They might all see the information, but it will look like gibberish to you,” explains Daniel Adahl of the Cornell IT Security Office.

Equipment to scope for information being sent over a wireless network typically costs less than a few hundred dollars, and can be used from anywhere on campus. A dishonest user can eavesdrop on a user’s wireless connection for years without a trace. Almost any data (passwords, credit card numbers, identity info, and bank accounts) is vulnerable to interception on an unsecured wireless network. RedRover re-encrypts, and can be captured by anyone who knows how to intercept Wi-Fi data transmissions. This means RedRover-Secure is your best Wi-Fi choice on campus.

Over the past two years, Cornell has made significant strides in raising awareness about the value of protecting your privacy and security by using RedRover-Secure. Please help CIT encourage more people to use the service, and spread the word about the following changes, which will allow Cornellians to continue using the service uninterrupted.

CRA and CAE Volunteers Help with Move-in Day

Members of the Cornell Association of Professional Employees (CAPE) and the Cornell Business Services (CBS) are often the first contract employees to arrive on campus. They arrive on move-in day to provide assistance to the Cornell Retirees Association (CRA) and the Cornell Campus Residences. This year, move-in day was a sunny day and the volunteers found their way to the residence halls on North Campus and West Campus on Opening Day.

Tech Spotlight:

“Get ready,” said Tara Kennel, Research Librarian at Bailey Hall, “RedRover-Secure has a new look.”

RedRover-Secure before, you must install your RedRover-Secure client. On September 11, 2010, RedRover-Secure security certificates will expire. At that time, Windows users who have not installed the new RedRover-Secure client will be unable to log in to the RedRover-Secure network.

Directions for how to upgrade RedRover-Secure with Windows can be found at http://www.it.cornell.edu/security/redrover.html.

If you’re never used RedRover-Secure before, go to the RedRover-Secure website and follow the client setup steps. By your activation your connection for the first time: www.redrover-secure.com/login
to activate your new RedRover-Secure account.

The new national health reform legislation, effective Jan. 1, 2011, allows parents to cover their adult children on their health and dental plans, effective retroactively to age 26. This legislation also affects college and graduate students.

As of July 1, 2010, eligible children on their endowed health and endowed dental plans, effective retroactively to age 26.

You can also receive health and dental insurance through a college or graduate student’s employment, their parents, or their own work place.

As an example, if you’re a part-time student at Cornell and are covered under your father’s employment, you may be eligible even if you are not covered on your own workplace. If you’re also eligible through your workplace, please contact the Cornell Student Health Center.

Also due in September: Applications for Cornell’s 2011 child care grant subsidies for part-time employees and staff members must be completed online and submitted to Benefit Services, 130 Day Hall, or by paper copy along with the signature page and supporting documentation, either hand-delivered or U.S. postmarked by Oct. 1. The university’s Child Care Grant Subsidy Program helps faculty and staff pay for child care expenses by granting awards of up to $5,000 a year, tax free, to cover legally recognized infant and toddler day care, preschool and prekindergarten programs, child care for school holidays, school-age summer day camps or programs, and before- and after-school care.

For more information, see www.hr.cornell.edu/benefits, or e-mail benefits@cornell.edu or call 607.255.3936. More information is available at www.hr.cornell.edu/life/support/wellbeing_programs.html.

Social hosts wanted to provide sense of belonging for international newcomers

I’t not about housing. Cornell’s Interna-
tional Program Hosts seeks local alums
and other community members to assist
newly arrived international students
and scholars with questions they may have
about American culture and the Ithaca
community, and to share such activities as
holiday dinners, sightseeing, picnicking,
shopping and family celebrations.

International students and scholars comprise near
one-fifth of the student body and fill more than
1,300 academic staff positions.

Hosts and newcomers are usually matched
near the time that the newcomer arrives
in the United States. Once a match has been made, the participant and host receive information about their match.

Hosts make the first contact with their international partner and are
encouraged to meet with them at least once during the semester and be communicative by phone or email.

Hosting an international student or scholar benefits
the host as well as the newcomer.

“This program is intended to enhance the lives of all participants who will share experiences, learn new skills and build lasting relationships,”
said Brendan O’Brien, director of the International Students and Scholar Office, which in collaboration with the Cornell Campus Club and Office of Alumni Affairs, sponsors the program.

Budget Redesign

...continued from page 1

Although the steering committee’s work has
just begun, the budget redesign project has
been in the works for more than a year.

The current phase, in which the steering
committee will recommend policy changes
and a timeline for their implementation,
will include forums, brown-bag lunches and
feedback sessions where the committee will
talk about the changes with stakeholders and the campus community.

The third, final phase will begin in July 2012,
with policies in effect.

“Most important outcome of this
process, other than the obvious effective-
ness and fairness, is a Cornell solution and
a Cornell redesign that is in the best interest
of the whole university in its reimagined
state as one Cornell,” Mangum said.
