Shumin Tan, in Microbiology and Immunology, College of Veterinary Medicine, won “Best in Show” at the judging of about 200 photographs submitted to the 2014 Pawprint Photo Contest. Her photograph, “Great Blue Heron: Two for One,” was also the winning photo in the “New Entrants” category. As Best in Show, the photo will be reproduced and framed for Tan, compliments of Cornell Print Services.

Other winners were Zachary Jacques, in the Unspecified and Structures categories; E. Jacob Cornelius, in Nature; Robert Michaels, in Landscape; Helaine Babbage, in Humor; Barbara Friedman, in Cornell; Cynthia Lamb, in Animals; Pacifico Savella, in Adults; and Ken Stuart, in Special Effects. All have been notified by email about their prizes and pick-up.

Runners-up are: Deborah Littlejohn, Karl Karlson, Richard Curtiss, Barbara Friedman, Nelson Roth, Cynthia Lamb, Elena Cestero, Zachary Jacques and E. Jacob Cornelius. Runners-up will be mailed a Cornell calendar, compliments of University Photography.

Honorable mentions are: Jennifer DeRosa, Ken Stuart, Amy Layton, Jennifer Thomas-Murphy, Lori Radcliff-Woods, Helaine Babbage, Loralyin Light, Shumin Tan, Elizabeth Garnett, and Cynthia Lamb.

Thanks also to this year’s judges, who admitted that the many excellent photos made judging between them challenging. Three staff members from University Communications judged the photos; photographers were kept anonymous during the judging. Judges were Robert Barker, University Photography; Wendy Kenigsberg, Marketing; and Joseph Wilensky, News.

In Appreciation
Thanks to all who contributed to the contest, including the winners, runners-up and those receiving honorable mention.

A special thanks to those who sponsored the contest and contributed prizes:

Cornell Print Services, for providing a matted and framed reproduction of the Best in Show
Cornell Store, for a gift certificate
Athletics and Physical Education, for certificates to sports events
Taverna Banfi, for dinner for two
Cornell Laboratory of Ornithology, for a variety of gifts, including a water bottle and videos
Cornell Wellness Program, for a free massage certificate
Gannett Health Services, for two personal safety emergency packs
Herbert F. Johnson Museum of Art, for a complimentary family membership, gift book and other items
Schwartz Center for the Performing Arts, for two performance tickets
Transportation Services, for a booklet of visitor parking passes
University Photography, for a complimentary studio portrait and 2015 Cornell Calendars

Benefair
LAST DAY FOR OPEN ENROLLMENT
IS NOVEMBER 21.

Ting Shih-Okawachi, at right, discusses benefit options with an attendee.
Women’s hockey trumps Yale at benefit for United Way

More than 1,000 supporters from the university and local area turned out for Cornell women’s hockey team’s annual fund-raiser game Nov. 15 to benefit the United Way of Tompkins County. Morgan Stanley of Ithaca donated $1 to the UWTC for every person in attendance, and another $700 was brought in through a raffle of items, event tickets and services donated by Cornell offices. Big Red beat Yale, 6-2.

Prior to the game and in honor of the Cornell women’s hockey team and their steady support of the UWTC, City of Ithaca Mayor Svante Myrick had officially declared Nov. 15, “Cornell Women’s Hockey Day in the City of Ithaca.” Members of the Tompkins Girls Hockey Association’s Cub Club were on hand to cheer the team and help with the ceremonial opening drop of the puck.

A first-time and popular pre-game “Family Fun Zone” was offered in the adjacent Ramin Room.

Cornell United Way co-chairs Anne Kenney and Ted Dodds and several Cornell United Way ambassadors coordinated the raffle drawing and promoted the 2014 campaign.

Cornell is one of several organizations that are Cornerstone Partners of United Way, ensuring that 100 percent of individual gifts by Cornell faculty, staff and students toward the Cornell United Way campaign are applied directly to the member agencies designated. These gifts comprise approximately 42 percent of United Way’s annual campaign goal. 

Get help: You’re not alone if the holidays stress you out. A recent poll by the American Psychological Association indicates that during the holidays just about 70 percent of Americans feel stressed by a lack of time and money.

Working in a demanding university environment can be stressful enough. Add winter’s long cold nights, stuffy days stuck indoors, plus a few hefty measures of shopping, overeating and complicated family dynamics - on top of already frazzled schedules and budgets - and you can wind up with a big steamy cup of the holiday blues. Despite constant bombardment with the message that it’s “the most wonderful time of the year,” many people find the holidays bring on increased anxiety and depression.

Sound all too familiar? Consider trying some new approaches to the holidays:

Give yourself a break: This may sound obvious, but the holiday season does come just once every year. You don’t have to make yourself miserable trying to get every detail perfect this time around. Pick just a few holiday goals - like hosting the family for a New Year’s Eve party. Then instead of stressing out trying to send hand-signed, individually addressed photo greeting cards, send a holiday email instead - it saves time, trees and money! Doesn’t that feel better? Keep reading!

Stay healthy: Make the extra effort to stay physically active. Stick to your regular schedule of working out, yoga, walking, etc. Stock up on healthy food and keep it closer at hand than all the cookies and sweets. Boost your immune system. Stay hydrated, get enough sleep and wash your hands regularly.

Focus on others: Give up a day of baking or shopping this year, and spend the day volunteering for a good cause instead, like helping out at a local food bank or wrapping gifts for a charity. How about shoveling snow for your neighbors? (that’ll take care of the exercise, too). You might even inspire some of the people who receive your goodies to “pay it forward.”

Get out of town: Take a vacation from holiday madness. Use the money you would have spent on gifts to fund your trip and accumulate memories instead of stuff. Worried about missing family? Invite them to join you for a reunion in the summer when things are more relaxed. You might even start a new family tradition: the gift of a stress-free holiday season.

Take a deep breath: If things start feeling like they’re getting out of hand, take a moment to walk outside, sit in your car or go somewhere quiet for just five minutes, and do nothing but breathe: in and out, nice and slow. This time-honored technique is like a reset button for your brain; it helps clear your head, calm your racing heart and bring down your blood pressure, so that you can make it through the day with renewed clarity.

Get help: You’re not alone. If you’re feeling overwhelmed, remember that Cornell’s Faculty and Staff Assistance Program (FSAP) offers free and confidential counseling and consultation for faculty, staff, postdocs, visiting scholars and retirees (see http://www.fsap.cornell.edu/). Call 607-255-2673 for an appointment.

Stay fit and well during the holidays and throughout the year. Visit wellness. cornell.edu to learn about the Cornell Wellness Program, which offers a wide range of such activities as fitness classes, life coaching, group knitting, webinars and healthy cooking demos.

Sue Brightly is a content manager in the Division of Human Resources and Safety Services.

Career/Life Opportunities

Six holiday wellness survival tips

SUSAN BRIGHTLY

You’re not alone if the holidays stress you out. A recent poll by the American Psychological Association indicates that during the holidays just about 70 percent of Americans feel stressed by a lack of time and money.

Working in a demanding university environment can be stressful enough. Add winter’s long cold nights, stuffy days stuck indoors, plus a few hefty measures of shopping, overeating and complicated family dynamics - on top of already frazzled schedules and budgets - and you can wind up with a big steamy cup of the holiday blues. Despite constant bombardment with the message that it’s “the most wonderful time of the year,” many people find the holidays bring on increased anxiety and depression.

Sound all too familiar? Consider trying some new approaches to the holidays:

Give yourself a break: This may sound obvious, but the holiday season does come just once every year. You don’t have to make yourself miserable trying to get every detail perfect this time around. Pick just a few holiday goals - like hosting the family for a New Year’s Eve party. Then instead of stressing out trying to send hand-signed, individually addressed photo greeting cards, send a holiday email instead - it saves time, trees and money! Doesn’t that feel better? Keep reading!

Stay healthy: Make the extra effort to stay physically active. Stick to your regular schedule of working out, yoga, walking, etc. Stock up on healthy food and keep it closer at hand than all the cookies and sweets. Boost your immune system. Six officers join Cornell’s police force

Six new Cornell University Police (CUP) officers were sworn in and two officers promoted – Sgt. Daniel Murphy to lieutenant and Officer Kevin Noterfonzo to sergeant – at the officer commissioning and swearing-in ceremony Nov. 13 in the Statler Ballroom.

Although the promotion and appointments had already been in effect, the event formally recognized the officers’ achievements and new responsibilities.

Among other duties, a lieutenant in the Cornell police force directs investigators and an investigations sergeant in pursuing reports of serious incidents on campus, coordinating protective details for visiting dignitaries, completing background checks and supporting students determined to be at risk, Chief Kathy Zoner said.

Murphy has received the Cornell University Police Medal of Merit and the Kiwanis Officer of the Month award, and he developed the Patrol Rifle Operator Program, Zoner said. He also helped lead the department’s successful reaccreditation in 2013 and has directed a sexual assault investigative task team, she said.

Introducing Noterfonzo, Zoner said the rank of sergeant is the first level of supervision in the Cornell police hierarchy: “A sergeant must know the officers, communicate with them frequently, foster their strengths, bolster their weaknesses and use that knowledge to grow each individual into a knowledgeable, well-trained, customer-service-oriented law enforcement agent of the campus.”

Noterfonzo attended Corning (New York) Community College and Wilson Technical Community College in North Carolina. As a patrol officer, Noterfonzo obtained numerous police credentials and worked with his canine partner, Reggie. The duo received New York state certification as an explosive canine detection team.

Six new officers, chosen from among 250 applications, were hired this year – Justin Baum, Vanessa Bentley, Tim Camilli, Brandon Frisbie, Kyle Sandy and Raymond Schweiger. All six are New York natives.

Baum graduated in 2009 from Rochester Institute of Technology with a B.S. in criminal justice and served the U.S. Army at Fort Drum before going to Afghanistan. There, he was a military police platoon leader before becoming captain. Baum was recognized with the U.S. Army Bronze Star Medal for service in Afghanistan and the U.S. Army Commendation Medal.

Bentley attended SUNY Albany, where she earned a B.A. in sociology and women’s studies, and a M.A. in criminal justice. Bentley graduated from the New York State Basic Police Course in 2013.

Frisbie attended Binghamton University, where he earned a B.A. in economics and an M.A. in public administration. He was a security coordinator at Corning Inc. and is a graduate of the New York State Basic Police Course.

Sandy graduated from Hobart and William Smith College with dual degrees in psychology and American studies. He is a graduate of the New York State Basic Police Course and plans to complete graduate work in Cornell’s ILR School.

Schweiger earned an A.A.S. in criminal justice at Broome County Community College and is a 1990 graduate of the Southern Tier Law Enforcement Academy. He worked as a patrol officer for the Ithaca City Police Department for 23 years, was a team leader of three K-9 teams, served as a special investigator in narcotics and twice was named Kiwanis Officer of the Month.

Camilli earned bachelor’s degrees in criminal justice and health sciences at SUNY Brockport. He is completing graduate work in nutrition through Western Michigan University.

All CUP officers are commissioned by New York state to enforce and make arrests for violations of federal, state and local laws and are empowered by Cornell to enforce its Campus Code of Conduct.

Save the Date! Career Exploration Event Jan. 9

More than 130 attended the first Career Exploration Event last January.

Because of the event’s popularity, Facilities Services and Cornell Dining will hold the second annual Career Exploration Event, Jan. 9, 10 a.m.–3 p.m. at the Commons Area in the Human Ecology Building.

Participants will have the opportunity to learn more about facilities and dining careers at the university, meet with community members, Cornell staff and union representatives, explore different fields and career paths, gain valuable interview tips and advice from seasoned professionals, develop a network of contacts and talk to representatives from many industries and organizations.

Parking is available in the Forest Home Garage.

UNSPECIFIED
Planning for an inclusive holiday season

The following guidelines are meant to assist Cornell community members in celebrating the winter holiday season safely and in accordance with the university’s commitment to diversity and inclusiveness.

First, when displaying holiday decorations, employees are expected to be sensitive to the rights and views of others and of the university’s commitment to creating an inclusive environment. The visibility of decorations to other employees and their resulting impact upon the workplace should be considered by employees who place them in the workplace.

Second, holiday decorations in the workplace are expected to be presented in a manner which is not disruptive and does not interfere with work performance or use university resources without approval. Such displays must also conform to the fire/safety and decorative guidelines contained in the Winter Holiday Display poster (http://sp.ehs.cornell.edu/lps/fire-code-compliance/Documents/FCC_Fire_Safety_Guidelines_for_Holidays_Decorations.pdf). This poster should be displayed in prominent places. More comprehensive information on event safety, including use of decorations and candles, can be found at the Environmental Health and Safety website, at http://sp.ehs.cornell.edu/event/event-management/Pages/default.aspx.

Finally, a good year-round suggestion regarding the timing and needs of staff when scheduling events is to refer to the Cornell United Religious Work calendar listing of major religious holidays, at http://dos.cornell.edu/curw/Religious-Holidays.cfm. Throughout the year, religious restrictions such as fasting (with implications for event planning), observances (absences from work) and other practices may warrant religious workplace accommodations or event planning modifications. Guidelines for handling requests for religious accommodations can also be found here.

For questions about fire safety information, contact Christine Stallmann at 255-8200 or ehssdir@cornell.edu; for workplace diversity issues concerning winter holiday displays, contact Alan Mittman at 255-6866 or alm63@cornell.edu.

– Christine Stallmann, associate vice president, Environmental Health and Safety, and Alan Mittman, director, Workforce Policy and Labor Relations

Library preserves fracking debate

As the moratorium on hydraulic fracturing in the State of New York continues, the rich online conversation surrounding it is at risk. Websites come and go; information easily discoverable today can be lost tomorrow. A Million Fracking Letters (https://wayback.archive-it.org/2788/20140727193403/http://amillion-frackingletters.com/), which encouraged New Yorkers to write letters to Gov. Andrew Cuomo, is a timely example; in July it was successfully archived, but since then the domain has been sold. Without preservation, all the resources that had been available there would be lost.

To preserve as much information as possible, Cornell University Library began the Hydraulic Fracturing in New York State Web Archive, at https://archive-it.org/collections/2788, in 2011. Community organizations for and against hydraulic fracturing, government and industry-related websites and scientific research-based websites are included in the public archive.

“These websites contain documentation of the important environmental, economic and political debate regarding hydraulic fracturing in our state,” said Jason Kovari, head of metadata services and Web archivist. “Without access to these sites, future researchers will be unable to piece together the dialogue surrounding this issue.”

Selector Lynn Thitchener monitors the Internet for potential content. Once she has determined a website is appropriate for inclusion, it is scoped to determine which results are gathered by the archiving tool and which are missed and need to be added. The process then becomes automated and archives material once a month, although library staff members continue to monitor the process. Recommend new websites by emailing the archive team at cul_webarchivist@cornell.edu.

Tech Training Spotlight

W ant to learn how to create and manage a team site in SharePoint Online? Or how to take your team site to the next level and increase user adoption? Register now for SharePoint Online training classes: Level 2 class on Dec. 10 or the Level 3 class on Jan. 13.

To receive training announcements, send an email with the subject: join to IT-Training-L-request@cornell.edu.

For a complete listing of technical training resources, see www.it.cornell.edu/training. Email questions to workshop-info@cornell.edu.

Holiday sale at The Cornell Store

The Cornell Store’s Holiday Sale will be held Nov. 20 and 21, with 20 percent off almost everything* at all locations of The Cornell Store.

Free with a minimum $125 purchase:
Andrew, the 2014 Cornell Holiday Bear, while supplies last.

There's plenty of free parking at the Shops at Ithaca Mall location, open Nov. 21 until 9 p.m.

*Discount valid in-store at the main store on Ho Plaza, The Shops at Ithaca Mall, Statler Lobby Shop and Sage Hall locations and online at store.cornell.edu. Previous purchases excluded. Cannot be combined with other coupon offers. Exclusions apply. See store for details.

Jumpstart the New Year

Tickets go on sale beginning Dec. 8 for the Winter Employee Celebration, scheduled for Jan. 17 in the Ramin Room, Bartels Hall. Save the date – more information to follow.
Prepare now for inclement weather (it’s already here)

As the days grow shorter and the weather turns colder, it’s time for faculty and staff to review their units’ inclement weather staffing plans. Cornell University offices generally remain in operation, classes continue and regular services are provided despite adverse weather conditions. Even in times of inclement weather, university employees are asked to continue meeting the academic, research and student support needs of our community.

University operation status
The university remains open and observes its schedules in all weather unless the vice president of facilities services determines that conditions warrant a closing or delayed opening. Careful attention is given to the expected intensity and duration of a storm in reaching that decision. Once the decision has been made, instructions will be communicated to the university community as quickly as possible and are updated as necessary.

STAY INFORMED – listen and watch for Cornell advisories and alerts through these platforms:
- Cornell University’s website: www.cornell.edu. Updates are posted in Spotlight, in the right-hand column.
- CornellALERT: (Emergency notification at http://emergency.cornell.edu/alert/) voice and text messages. To receive CornellAlert messages, follow the instructions at http://emergency.cornell.edu/alert/
- Inclement Weather Phone: 607-255-3377

Employee travel and time
If the university remains open in adverse weather, even when a county or municipality makes an announcement to “avoid unnecessary travel,” faculty, administrators and staff should make reasonable efforts to maintain their regular work schedules, but are advised to avoid undue risks in traveling. Supervisors should be flexible regarding a staff member’s individual needs during inclement weather.

Employees who anticipate arriving late or not at all should notify their immediate supervisor as soon as possible. With supervisory approval, staff may charge their time off to accrued health and personal leave or vacation. Alternatively, and with supervisory approval, nonexempt staff may request to make up the time in the same workweek or take leave without pay.

Essential employees
Essential employees are those needed on campus to meet the needs of students, research programs or general operations when the university is closed. Note: essential service cards will no longer be distributed. To read more about this and about other information pertaining to essential employees and associated supervisory responsibilities, visit the Environmental Health and Safety web site at http://sp.ehs.cornell.edu/Pages/Home.aspx.

Inclement Weather Policy
Policy 8.2, Inclement Weather, can be found on the University Policy Office web page at http://www.dfa.cornell.edu/cms/treasurer/policyoffice/policies/volumes/riskandsafety/upload/vol8_2.pdf. Contact Environmental Health and Safety at 255-8200 or askshehs@cornell.edu about essential service employees. Questions about compensation should be directed to your supervisor or local college/unit human resources representative (https://www.hr.cornell.edu/about/).

– Kyu-Jung Whang, vice president for facilities services, and Mary Opperman, vice president for human resources and safety services

Snow removal procedures and winter weather preparedness

PETER SALINO

Central New York inclement weather often arrives at the most inconvenient of times. The Cornell Grounds Department would like to remind the Cornell community that proper dress, footwear and vehicle tires are the key tools to navigating winter weather.

Snow removal: When roads, sidewalks and steps become snow-covered or icy, plowing and de-icing operations will begin. A typical snowfall of 1-3” will require 4-5 hours of work to get through one cycle of more than 60 miles of walks, 15 miles of roads, 114 acres of parking lots and hundreds of steps. While it’s snowing, travelers can encounter slippery or snow-covered conditions across campus at any time.

Parking lots: Snow clearing will begin when snow accumulations reach 2-4”. De-icing is done as needed depending on precipitation type. Generally, if snowfall occurs during working hours, the entrances and main aisles are cleared. Overnight, once vehicles have vacated the parking lots, the lots are cleared in their entirety. This process can take up to 10 hours to complete and sometimes requires assistance from outside contractors depending on snow depth and ice accumulation. Residential lots may take up to 24 hours to clear after a snowfall event.

Challenges: A substantial snowfall may require several days to fully remove snow and de-ice all areas. Heavy/dense snowfall is often the most difficult to clear and requires more heavy-duty equipment and contractual assistance, and increases the potential for equipment breakdowns. Emergencies such as water main breaks and sewer backups, or special deliveries to essential service docks, will take priority and can draw resources away from parking lot snow removal efforts.

The Grounds Department intends to have a solid plan in place each year for orderly and prioritized snow removal for the campus community. Each storm presents a different challenge, so flexibility and adaptability are key to all members of the community reaching their destinations safely.

– Peter Salino is director of the Grounds Department.
Did you know?  
Staff and faculty can get physical therapy services on campus

JULIE GLANVILLE

Dealing with back pain or carpal tunnel symptoms? Recovering from an injury or surgery?

You may be interested to learn about one of Cornell’s best-kept secrets: physical therapy services for staff and faculty, available right here on campus.

Cornell community members can self-refer, making an appointment without having to be referred by their primary care provider. Better still — most PT fees are covered by Cornell employee (contract college and endowed) insurance plans.

Cornell Physical Therapy, a department of Gannett Health Services, operates its fully-equipped PT facility in Schoellkopf Hall, and also offers aquatic therapy at Helen Newman Hall.

“We find that students tend to know about us, but many Cornell employees are unaware that our PT services are available to them, too,” said physical therapist Susan Geisler, supervisor for the department. “Employees who do access our services really appreciate the convenience of it being on campus, and the fact that we open at 7:30 in the morning, and also offer appointments during lunch hours.”

Cornell’s five licensed physical therapists and one physical therapist assistant provide comprehensive evaluation and personalized rehabilitation for injuries and chronic pain, along with education about how to prevent a recurrence of injury or symptoms.

“We specialize in treating orthopedic, neuromuscular, sports and work-related injuries; problems associated with neck and back pain; as well as post-operative, arthritic, and repetitive-motion conditions,” said Geisler.

Patients are led through rehabilitation programs using such activities as therapeutic exercise, exercises to improve posture, home exercise programs and aquatic physical therapy. PT staff often augment rehabilitation methods using heat, cold, ultrasound, electrical stimulation and manual therapy.

Staff and faculty may schedule a PT evaluation and treatment with or without a physician’s referral. Services are available Mon.-Fri., 7:30 a.m. to 4:30 p.m. Cornell insurance plan members should check their plan for coverage details. Other private insurance plans may also cover physical therapy services.

To make an appointment, call 607-255-7217. For more information, visit www.gannett.cornell.edu/PT.

~ Julie Glanville is a health communications specialist for Gannett Health Services.

Holiday cheer in New York City

Sign up now for the Cornell Recreation Connection day trip to NYC, Dec. 13.

See a show; visit a museum; shop and window-shop: whatever you can fit into the day. This trip is filling quickly. Do not delay in making your reservations!

The discounted fare for NYC trips is $50/person for Cornell employees and up to four guests. Contact Swarthout Coaches at http://www.goswarthout.com/tours/cornell-faculty-tours-31.html to make a reservation. Full payment is due at the time of reservation. All tickets non-refundable.

Itinerary for “Day on Your Own in NYC” trips

• 6:30 a.m.: Bus leaves Cornell’s B-Lot (you must have your boarding pass to board the bus).

• 11:30 a.m.: Bus arrives at New York City with drop offs at Bryant Park and Macys (34th St. and 7th Ave).

• You will spend the day on your own.

• The bus leaves from Bryant Park ONLY at 8 p.m. sharp, returning to Cornell at about 12:30 am.
